eLibrary®
Research Made Easy

Stress-Free Topic Choice

eLibrary simplifies the research process, empowering novice researchers to more easily and efficiently choose their research topic and find authoritative information to support their research claim.

The complete redesign is based on customer and user feedback indicating that selecting a topic is the most stressful research-related task for students. So we made it easier. Innovative features and enhancements help students discover interesting, approved topics based on current events and issues that matter to them – sparking their curiosity and setting them on the path of a successful research journey.

Easy Topic Selection
More than 11,000 editor-created Research Topics pages deliver the essential elements on a vast array of people, places, historical events and eras, literary genres, current events, broad curricular themes and much more. Editor's Picks and Trending Topics make it easier to explore appropriate subject matter and get started.

Reliable Sources
Researchers can access primary and scholarly sources, and all content is in 100% full text. 2,000 magazines, newspapers, transcripts and digitized reference book content, more than seven million images, maps, websites, videos and interactive simulations, all expertly curated by ProQuest editors. eLibrary provides trustworthy, educator-approved websites and top-quality multimedia sources.

Visual and Responsive Design
The new eLibrary focuses on features and highly-visual design elements that quickly and easily guide researchers to the content and tools they need. Research Topics are showcased front and center with eye-catching imagery. The responsive design is optimized for use on any device. Features such as Lexile® reading levels, citation tools, and Google Drive and Google Classroom integration improve and streamline student collaboration and workflow.
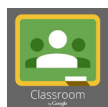

Grow Database Usage Stats
eLibrary is also available on the award-winning ProQuest platform, so users can cross-search with your library's other subscribed ProQuest databases, improving database usage and library return-on-investment.

Guided Research for Novice Researchers

With eLibrary, students benefit from innovative features for a stress-free introduction to research

- **Intuitive user interface.** Clear and easy-to-navigate; helps guide users to their research topic and supporting evidence.

- **Workflow integration.** Email, cross-search with other ProQuest resources, connect and share with Google Drive and Google Classroom, export citations to EasyBib.

- **Media-rich content,** including high-quality images, streaming video clips, interactive graphics and online content that demonstrate concepts through seeing and doing.

- **Smart content** ensures what you need first is what you see first. Research Topics pages feature "best-of" content that provide comprehensive, foundational understanding of the most researched topics, and spark pathways for future exploration.

- **Usability and differentiated learning.** Support users with special needs, limited English proficiency, or accelerated skills with Lexile reading levels, text-to-speech, language translation, and educational standards alignment, which make it easier for students from a variety of skill levels to research a topic successfully.

Journals. News sources. Video. Reference books. Transcripts. Pictures. Websites.

Engaging online graphics, videos, full-text articles, and websites

Research Topics pages jump-start research on key topics with context and pathways for exploration

About ProQuest

ProQuest is committed to supporting the important work happening in the world's research and learning communities. The company curates content that matters to the advancement of knowledge, assembling an archive of billions of vetted, indexed documents. It simplifies workflows so that people and institutions use time effectively. And because ProQuest connects information communities, complex networks of systems and processes work together efficiently. With ProQuest, finding answers and deriving insights is straightforward and leads to extraordinary outcomes.

ProQuest and its companies and affiliates – Ex Libris, Alexander Street, Bowker – stand for better research, better learning, better insights. ProQuest enables people to change their world.
